Foul Poles

Model FLP-30VS
30-feet high

Model FLP-20VS
20-feet high

Take a look at the JWI difference:

FEATURES

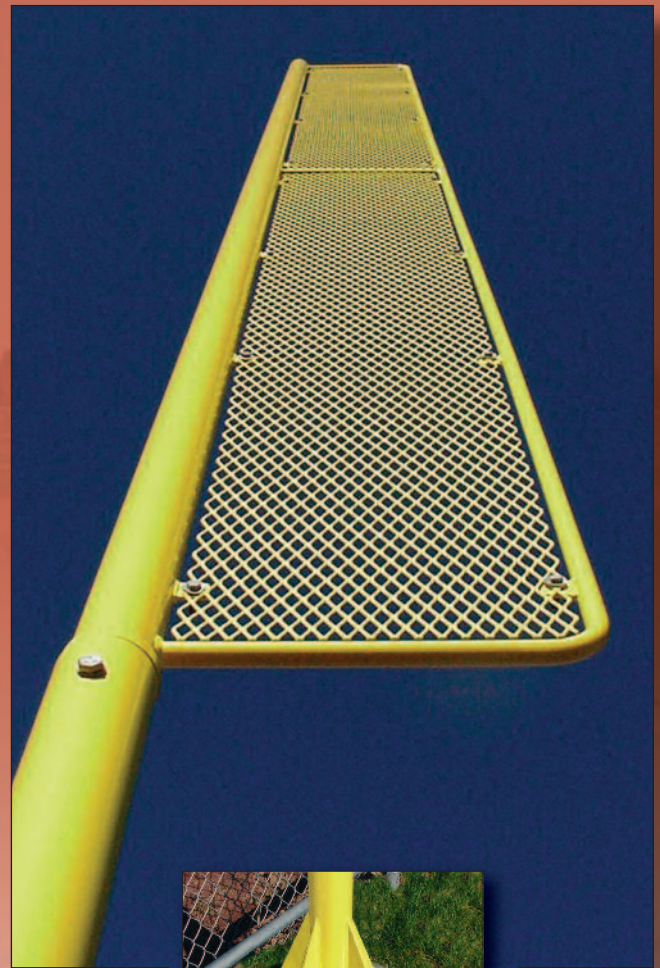

- Creates an impressive visual reference point for the umpire
- Unique mounting system:
 - Allows for installation on a pre-poured concrete foundation
 - Allows for final leveling and alignment during installation
- Reversible design allows for use on 1st and 3rd base lines
- Easy assembly of pre-fabricated components

MATERIALS

- High-strength steel components
- Durable powder-coat finish in standard color: yellow
- Corrosion resistant galvanized fasteners

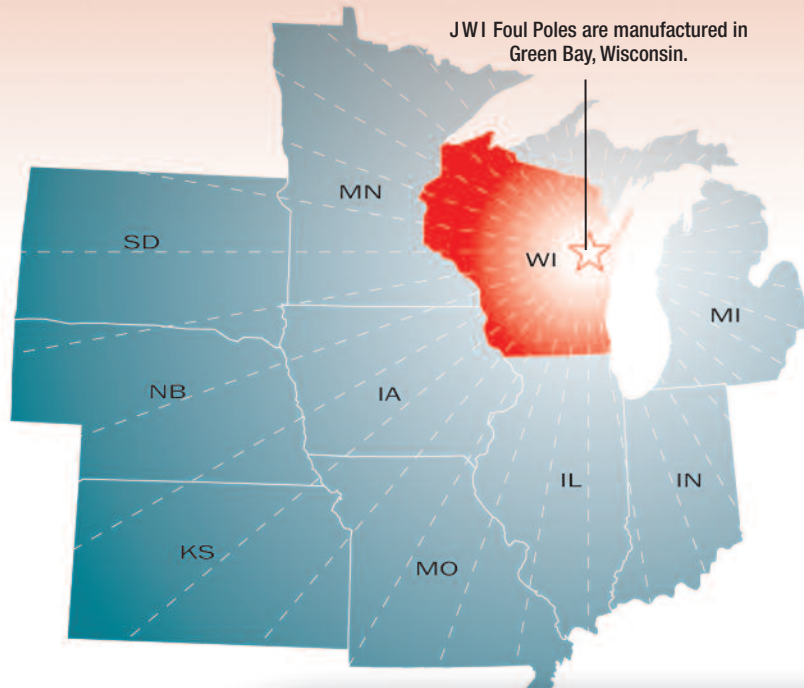

CONFIGURATIONS

- Model #FLP-20VS – 20 feet high
- Model #FLP-30VS – 30 feet high
- Custom sizes available

Unique JWI mounting system provides ease of installation

JWI Foul Poles are manufactured in Green Bay, Wisconsin.
