Elevated wrap-around designs

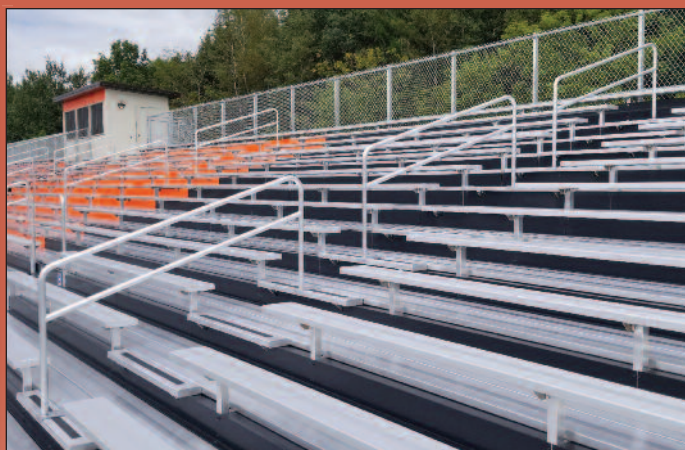

Non-elevated wrap-around design

Welded one-piece tubular frame construction provides for minimal cross bracing. The result makes the underside of the bleacher easier to clean and maintain.

**Take a look at the
JWI difference:**

OPTIONS

- Colored Risers – team or facility color coordination
- Colored Aisle Railings
- Colored Guardrails
- Front Skirt System
- Seat Engraving for fundraising, recognition and identification

Press Boxes – see **JWI Press Box Sales Sheet** for more information

JWI Elevated/Custom Bleachers are
